

FACTSHEET

We help people of all ages with all sorts of problems!

HELP MURCIA MAR MENOR CANCER SUPPORT GROUP

Information on Screening Facilities

AECC Contra El Cancer from Torrevieja have kindly offered us to take part in their Breast & Cervical screening programme. The cost for this service is 120 euros and the patient is expected to pay a donation of at least 50%.

The people wishing to take part in this programme do not have to be in possession of a medical card but have to register beforehand with Megan Johnston or Help MMM, pay their donation and give them their full name, address, NIE no. and telephone no.

These people will be given a date to go to Alicante where they will be screened for both breast and cervical problems using the latest ultrasound equipment under the supervision of a highly respected specialist.

They have also offered us places for gentlemen to have a prostate blood test and examination which costs 100 euros and again they expect a donation of not less than 50%. The above mentioned registration also applies. The blood test and screening takes place in local Torrevieja clinics by a urologist specialising in cancer of the prostate
